For body building and fast reflexes TAKE EXAKTA it's occupational therapy!

Build up your basic system with Exakta and you will increase in stature. Better reflexes with a fully automatic diaphragm. From the negative position watch your development. Your vision is improved: you have more positive colour appreciation. You look better, feel better and are better: the envy of your friends Sought after on the beach; made at Christmas parties! Take a "do it yourself" course with Exakta — build up your system — and keep pace with pml.

BEFORE

Redesigned, this latest model Exakta is a worthy successor to its predecessors.

Smart and functional, it maintains the traditionally high standard of precision and mechanical adaptability expected of the world's leading system of 35mm System Photography.

Now with instant return mirror.

Shutter: Focal Plane 12 secs — 1.000 sec with B & T and delayed action.

Lenses: Interchangeable bayonet fitting from 20mm—1000mm auto or manual

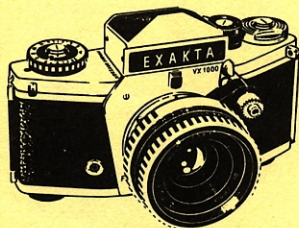

Viewfinder: Pentaprism, waist level or Magnear, with choice of screen.

Synchronisation: Focal Plane Bulbs, 'M' Bulbs and Electronic Flash.

Take up: Cassette to cassette or Standard Spool.

Miscellaneous: Instant return mirror, double exposure prevention or override; built-in film cutting knife; rapid rewind handle; detachable back; visual film advance check; Frame counter, film type reminder.

Dimensions: 3½" x 6" x 2", **Weight:** 24½ ozs.

AFTER

Exakta — The new VX 1000

Shutter: Focal Plane speeded ½ sec. — 1/500 sec. B & T

Lenses: Interchangeable, accepting lenses from 20mm.

Viewfinder: Instant return mirror with shutter cocked warning device built into the fixed Pentaprism with Fresnel screen incorporating rangefinder.

Synchronisation: Flashbulbs and electronic flash.

Take-up: Cassette to cassette or standard take-up.

Miscellaneous: Short lever wind stroke; detachable back; Rapid rewind crank handle.

Exa 500

Shutter: Focal plane speeded from 1/30 sec. to 1/175 sec. with B & T.

Lenses: All Exakta lenses can be accepted though vignetting may occur with lenses of 100mm and over.

Viewfinder: Interchangeable, waist level, pentaprism and Magnear with a large choice of screens for specialised work.

Synchronisation: Bulb and electronic flash.

Take-up: Cassette to cassette or standard take-up.

Miscellaneous: Detachable back. Shutter locking device.

Exakta Close up Accessories

180 Extension Tubes

consist of a pair of bayonet adaptor rings providing an extension of approx. 10mm and three extension tubes 5-15-30mm respectively, giving extensions from 10-60mm in combination. £5 0 11

187 2 in 1 ring. A ring which fits directly between lens and body to give minimum extension of 5mm. £3 5 2

Reversal Rings to permit the use of a reversed standard lens.

159.4 35.5mm for Meritar

159.2 40.5mm for Domiplan old pattern

each £1 4 5

159.3 49mm for Tessar, Domiplan and Pancolor

176 **Miniature Bellows** give a continuous adjustment range from 35-125mm. If used with special f2.8 sunk mount Tessar: from 0-125mm. Fitted with tripod bush. £11 0 8

178 **Autocouple Rod** for use with Extension Tubes or Miniature Bellows when it is desired to couple the fully automatic diaphragm of the lens with the shutter release. 16 8

153 **Microscope Adaptor**. This fits over the standard 25mm diameter eyepiece of the microscope. £8 17 9
